BIRD HOUSE COLLECTION

Bottle Bird House

The Bottle Bird House is our interpretation of the bird houses discovered in early excavations of colonial Williamsburg, where birds were encouraged to live near kitchen gardens as the major resource of insect control.

This one-piece house is hand thrown and measures 9.5" in height and 6" in diameter. Included are wall mounting instructions, stainless steel screw and neoprene washer.

Available in 5 colors: White, Royal Blue, Teal Green, French Blue and Butternut.

BIRD HOUSE COLLECTION

Peek-A-Boo House

Peek-A-Boo Bird House is a nesting box for small birds. Hang on a tree, a tall post or the wall of a building. In the practice of early settlers; especially in Williamsburg, Virginia, a nesting box was hung near the farmyard garden for pest control.

The entry hole of the bird house is large enough to allow small resident birds, but small enough to keep larger predator birds from entering.

Measures 5" in diameter by 10" in tall. Mounting hardware and instructions are included with the Peek-A-Boo.

Available in 6 colors: White, Royal Blue, Teal Green, French Blue, Lavender Blue and Butternut.

BIRD HOUSE COLLECTION

Small Bird House

For many years I have been asked to make a larger "chickadee feeder" as a bird house because birds have been nesting in the small feeders. ("blackcaps" had nested in mine, which was a bit snug for a family of four)

This new house measures 6" in height and 4.5" in diameter; is a similar spherical form with decorative incised texture, and, of course without a perch.

Available in 6 colors: White, Royal Blue, Teal Green, French Blue, Lavender Blue and Butternut.
