Ikibana

Ikibana is the traditional Japanese art of flower arranging, which expresses the philosophy of “less is more” by using few items in the arrangement and following design concepts of the completed arrangement having its outline follow a basic geometric shape; most often a triangle. To accomplish that end, the elements of the arrangement are typically secured to a “pin frog” which has been attached to the bottom of a shallow container.

Both Ikibanas offered are slab constructed and serve their purpose functionally and artistically. The square-dish ikibana comes with a 1” pin frog and the long-curved ikibana comes with a 2” pin frog secured in place. Only a small amount of water is required to maintain freshness of the floral elements.

Measures 9”x9” and 10”x3 ½”.

Available in 5 colors: Teal, Royal, French Blue, Butternut and Black.

Bath Set

Pump Jar

Incised texture creates a decorative surface to complement the companion soap dish. Its broad base provides stability for "one handed" use. The pump works easily to portion soap, bath gel, body lotion or liquid dish soap. Flanged lip allows Pump Jar to be handled securely even with wet or slippery hands.

Measures 7 ½" high.

Soap Dish

This soap dish is both functional and fun and compliments our Pump Jar. On vanities, the pedestal design allows the soap dish to be placed close enough to the lavatory to prevent soap drips on the vanity. Our one-piece design is also a breeze to clean. Just pour out any soap drippings and rinse with very hot water or run through the dishwasher.

Measures 7 ½" high.

Available in 5 colors: White, Teal Green, French Blue, Lavender Blue and Butternut.
